

2nd I.CE.A. E-Newsletter (October 2022)

About the project

The “I.CE.A” project, short for “Investing on Circular Economy through Adults” aims to offer high quality learning and networking opportunities responding to the needs of adults wishing to dynamically engage in circular economy activities. The project will build a bridge amongst green entrepreneurs (mentors) and future green entrepreneurs (mentees). Social entrepreneurship signals the imperative to drive social change and the project aims to trigger and reinforce this change.

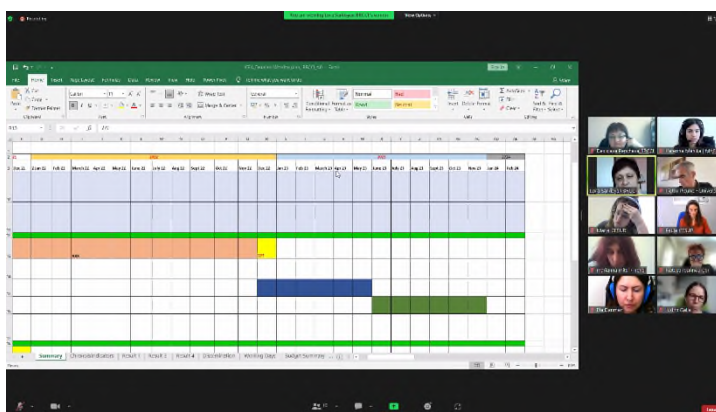

Latest Developments

During the second semester of the I.CE.A. project, all partners have been working hard towards the delivery of Result 1: Interactive Map on Circular Economy. In order to deliver this result, partners first focused on desk-based research of the circular economy status in their countries and then at a second stage, they have been conducting roundtables with experts and entrepreneurs of circular economy. All this national data collected will set the base for a state-of-the-art report, which will incorporate the general framework on circular economy in partner countries through the Circular Economy Interactive Map.

Online Project Meeting: May 23, 2022

On **May 23, 2022**, the second partner meeting of I.CE.A. was held online via Zoom, due to the current situation of the pandemic, and it was hosted by project leader BRCCI. All partners came together to

talk about the project management and implementation, and exchange

thoughts and ideas about the project process. During the meeting, partners discussed about the implementation of Result 1 and agreed that the completion of this project result's tasks is the top priority for all of us. The Consortium also discussed about the Environmental Protocols and decided on future deadlines.

Dissemination

Since May 2022, the project's website has been up and running, and it has been translated in all partners' national languages (Bulgarian, Greek, French, Spanish, Italian, Polish and German). Soon to be filled with more project news!

Next up...

The project partners are about to take part at I.CE.A.'s TPM in December 14-15, 2022, in Vienna, hosted by Die Berater. We are looking forward to meet each other face-to-face for the first time, after a long time of COVID-related restrictions!
